Swallowing Disorders

The Role of Neuromuscular Oro-facial Taping

Gestalt Language Processing

Parent Guidance Strategies

# Course Overview

---

## Phonological Disorders

The course is designed for speech-language pathologists and other professionals working with children who exhibit challenges in phonological development. This comprehensive training spans phonological theory, assessment, and practical intervention strategies, ensuring participants gain both theoretical and hands-on knowledge.

Throughout the course, participants will explore the nuances of phonological disorders, including the difference between phonetic and phonemic inventories, the developmental norms of phonological processes, and the impact of disorders on speech intelligibility and communication. The training emphasizes evidence-based practices, offering detailed guidance on intervention approaches with case discussions and interactive applications to ensure clinical relevance.

This course provides participants with the tools and knowledge needed to analyze, assess, and intervene effectively, ultimately enhancing the communicative outcomes for children with phonological disorders.

# Course Objectives

---

- **Understand the fundamental concepts of phonology, including phonological development, processes, and disorders.**
- **Differentiate between typical and atypical phonological processes and identify red flags for phonological disorders.**
- **Analyze and assess speech samples to determine phonological inventories, error patterns, and severity levels.**
- **Apply evidence-based treatment approaches tailored to specific phonological disorders.**
- **Develop individualized intervention plans targeting phonological awareness, sound inventory expansion, and speech intelligibility.**

# About the Trainer

---

**Dr. Safa is an experienced clinician in pediatric speech and language therapy, with a strong focus on early intervention, behavioral support, and school-based programs. She is certified in several evidence-based approaches, including NDP3, DTTC, PCIT (UK), CBT, and the Lidcombe Program, and is also a certified Portage assessor. Her clinical expertise lies in supporting children with complex communication and developmental needs.**
