through high-quality programs to  
elevate your expertise

## About Sunflowers Training

We are a British-Jordanian center. We specialize in offering training programs in the fields of speech and language, hearing, communication, and various rehabilitation areas, all based on scientific evidence and the latest studies. These programs are led by specialized trainers with exceptional practical and scientific experience in these fields. Our courses are offered to students, graduates, and professionals from various Arab countries.

**01** Certified by CPD UK

**02** Trusted by Thousands of  
Professionals

# Why Choose Our Courses

## Evidence-Based

Our materials follow evidence-based and scientifically proven methodologies.

## CPD Accreditation

Our certificates are recognized and counted toward international professional development points

## Post-Course Follow-Up

Discussion platforms for case reviews and ongoing practical support are provided

## Professional Trainers

Skilled trainers with Master's and PhD degrees, and up to 20 years of practical experience

Parent Guidance Strategies

# Course Overview

---

## Aural Rehabilitation

**This course aims to equip SLPs, students, and healthcare professionals with a clear understanding of Aural Rehabilitation for children who are deaf and hard of hearing. Participants will learn to identify, assess, and analyze speech patterns in relation to their hearing abilities, plan their language progress, and support their language development based on Natural Language Acquisition (NLA) stages**

# Course Objectives

## Aural Rehabilitation

### 1- Understand the impact of hearing loss on language development:

- Define the different types and degrees of hearing loss.
- Explain the impact of hearing loss on sound recognition and speech understanding

### 2- Analyze Research and Developmental Patterns:

- Summarize key research on auditory skills development, speech and language of children who are deaf and hard of hearing
- Recognize the role of early intervention in language development.

### 3- Identify and Assess Auditory skills based on Erber model:

- Define the four skill levels in auditory skills.
- Identify the different levels of difficulty in each skill level based on stimulus characteristics.

### 4- Apply Clinical Knowledge to Support Language Development:

- Relate speech recognition patterns to speech production sample.
- Use strategies to enhance listening and auditory skills in everyday situations.
- Use techniques to develop language skills both receptive and productive and the use of language in everyday situations

# About the Trainer

---

**Dr. Nadia Abdulhaq is a highly accomplished Speech-Language Pathologist and Audiology specialist with over 20 years of clinical, academic, and international experience in hearing rehabilitation and cochlear implants. She holds a Ph.D. in Communication Sciences and Disorders and a Doctor of Audiology degree from the University of Florida, in addition to a Master's degree in Speech Pathology. She currently serves as Senior Clinical Technical and Rehabilitation Consultant at Cochlear (Middle East & Africa), where she provides technical leadership, professional training, and rehabilitation support across the region. Dr. Abdulhaq has extensive expertise in auditory verbal therapy, pediatric and adult cochlear implant rehabilitation, clinical supervision, and professional training, and she is widely recognized for her contributions to conferences, workshops, and capacity building initiatives throughout the Middle East and beyond.**
