## About Sunflowers Training

We are a British-Jordanian center. We specialize in offering training programs in the fields of speech and language, hearing, communication, and various rehabilitation areas, all based on scientific evidence and the latest studies. These programs are led by specialized trainers with exceptional practical and scientific experience in these fields. Our courses are offered to students, graduates, and professionals from various Arab countries.

01 Certified by CPD UK

02 Trusted by Thousands of  
Professionals

# Why Choose Our Courses

## Evidence-Based

**Our materials follow evidence-based and scientifically proven methodologies.**

## CPD Accreditation

**Our certificates are recognized and counted toward international professional development points**

## Post-Course Follow-Up

**Discussion platforms for case reviews and ongoing practical support are provided**

## Professional Trainers

**Skilled trainers with Master's and PhD degrees, and up to 20 years of practical experience**

Hearing Aids

The Picture Exchange Communication System (PECS)

Voice Disorders

LSVT LOUD

Sensory integration for SLP

Dyslexia: Concept, Diagnosis, and Practical Applications

Swallowing Disorders

The Role of Neuromuscular Oro-facial Taping

Gestalt Language Processing

Parent Guidance Strategies

# Course Overview

---

## Peripheral Vestibular Disorders for Audiologists

This course provides audiologists with a structured and clinically focused overview of peripheral vestibular disorders. It introduces key concepts for differentiating peripheral and central causes of dizziness and clarifies professional roles in assessment, management, and referral. Dedicated sessions on benign paroxysmal positional vertigo (BPPV), Ménière's disease, and vestibular neuritis address their pathophysiology, symptom profiles, diagnostic approaches, and management pathways. Emphasis is placed on clinical reasoning, patient counselling, and interdisciplinary collaboration to support safe and effective vestibular care.

# Course Objectives

## Peripheral Vestibular Disorders for Audiologists

- Differentiate between peripheral and central vestibular disorders based on symptoms and clinical features.
- Identify key red flags and determine appropriate referral pathways (audiology, ENT, neurology).
- Describe the pathophysiology, symptoms, and diagnostic features of BPPV, Ménière's disease, and vestibular neuritis.
- Select appropriate assessment tools for common peripheral vestibular conditions.
- Outline evidence-based management and counselling strategies within the audiologist's scope of practice.

# About the Trainer

---

**Dr. Sara Alhanbali is an Assistant Professor of Audiology at the University of Jordan with extensive academic and research experience in hearing sciences. She earned her Ph.D. and Master's degree in Audiology from the University of Manchester. Her research focuses on listening effort, fatigue, hearing impairment, and auditory processing, with multiple peer-reviewed publications in leading international journals.**

**Dr. Alhanbali has presented her work at prominent scientific conferences and actively contributes to advancing audiology practice and research through teaching, supervision, and professional workshops.**

**Dr. Sara Alhanbali**

**Ph.D. in Audiology**
